

## Lucas SITHOLE - LS and HP reference tables – including LD numbers

From 1972 onwards, works by Lucas SITHOLE were identified with a label affixed below the base or sculpture, bearing the initials **HP** (for Hyde Park) followed by 4 digits, e.g. HP1234

Later, all sculptures from the earliest recorded works were recorded under an **LS** reference number followed by 4 digits, the first 2 digits representing the year the work was created or assumed to be created, e.g. LS6801.

In addition, Gallery 21 London Ltd kept a separate register for works by Lucas SITHOLE held by them during 1974-1976 – these are also recorded as **LD** followed by 3 digits, as listed at the end of this page.

Hereunder follows a **table showing the HP numbers recorded with equivalent LS numbers**, for easy identification by holders of sculptures or paintings by Lucas SITHOLE. Such numbers may appear on original documents held by first owners, or at the base of the work, at the back of the painting, on the web or they are recorded in the confidential Master Registry of all works by Lucas SITHOLE which is kept by the copyright holders, being The Haenggi Foundation Inc., Basel.
